MT PRITCHARD - AUTUMN 2022

Thank you for downloading our latest Mt Pritchard Market Update.

With 2021 now in the history (and record) books, the focus is well and truly on where the property market is heading throughout 2022. Ask 10 different people and you'll get 10 different answers.

With so much conflicting information coming to us from every direction it's hard to know, and it can change in an instant.

Some of the most frequently mentioned factors that are expected to have an impact on the market this year include:

1. Rising interest rates off the back of high inflation
2. The federal election
3. Unforeseen consequences from COVID
4. Soaring rent prices potentially reactivating investors and first home buyers
5. Strong economic growth

While trying to forecast where the market will go is speculative, let's talk about what we are finding is already occurring in the property market to start the year.

The return to a "normal" market instead of a red hot seller's market

Pricing, method of sale and good agents are integral parts of a successful campaign again.

A tale of 2 markets

Well-presented properties that appeal to owner-occupiers are achieving huge amounts of enquiries, inspections and great sales results, while run down and dilapidated properties are no longer appealing to large sections of the market. This might mean that if you're thinking of selling, a renovation or freshening up of the property is crucial.

Rising stock levels

We have already seen, and are continuing to see an increase in the number of properties coming to market. More properties on the market coupled with waning demand means that the average number of inspections and offers on properties has dropped back to a more regular level. This was to be expected.

As always, I am happy to have a discussion with you about anything property related at any time. If you would like to know more about anything I've spoken about above, or if you are interested to know the value of your property in this constantly evolving market, simply get in touch by either email, text or phone call and I'd be glad to help.
